## 20-Head Multihead Weigher

Amata-Kate 220

AMATA multi-head weighing systems consist of high precision and high-speed combinational dosing systems. The **AMATA-KATE-220** series includes models with 20 weighing heads with a set of different designs to suit different products.

### General Features:

- 100% stainless, robust construction.
- Smooth or corrugated contact surfaces with the product (depending on the product).
- Numerous special configurations for specialized products.
- Color Touch Screen.
- Release doors can remain open for thorough cleaning.
- Electronic circuit console with high quality components, in accordance with European Union directives for 24V connections.
- Made in Europe.

### Optional:

- Special design for sugar (abrasive) and small granular products or rod-like products.
- Modules suitable for frozen, sensitive or sticky products.
- Stainless support platform with stairs.
- Rotating central product dispenser.
- Possibility of separating into two 10-head parts for product mixes in the final package.
- Single or double release doors.

Amata-Kate-220

<b>Kinematical speed (doses/min)</b>	140 (70 for mixtures)
<b>Min dose weight (kg)</b>	0,015
<b>Max dose weight (kg)</b>	2,5
<b>Dosing type</b>	Combinational weighing
<b>Dosing accuracy</b>	Adjustable, depends on product
