

BS 52

High Capacity Automatic Tray Sealing Machine

BS 52

The **BS 52** machine is an extremely compact, linear, automatic tray sealing machine.

It has an integrated conveyor belt and an exit roller conveyor. With automatic film trim rewind after sealing.

Suitable for a wide range of sealing applications such as: fresh or frozen meat & fish, fresh agricultural products, bakery products, prepared meals, nuts, dairy products, dairy products, and so on.

General Features:

- Made of stainless steel and anodized aluminum.
- Easy change from one container to another within minutes.
- Photocell for printed film.
- **SIEMENS PLC** with a 7" touch screen.
- Production scheduling with program and parameter memory slots.
- Low power consumption.
- Compact in size.

Optional:

- Guidance system for lining up the trays at the machine's exit.
