

FP/10-Ultra

Automatic Stretch Wrapper

FP/10-Ultra

The **FP/10-Ultra** is an automatic machine designed to wrap pallets with stretch film.

Grouping products through the wrapping process helps with:

- Minimizing the necessary storage space.
- Preventing damage to products due to a fall.
- Transporting pallets easily and safely.

Upon request, a pressure disk can be added to the top of the machine. The tray is necessary for wrapping light products, where, before wrapping is completed, they may have moved from their original position.

General Features:

- Ease of use and maintenance.
- Adjustable rotation based on film unwinding.
- Automatic adjustment according to pallet height.
- Rotation counter.
- Safe operation.
- Accessories from leading manufacturers (Festo, SMC, Omron, Bender, Schneider Electric etc.).
- Electronic circuit console with high quality components, in accordance with European Union directives for 24V connections.
- Made in Europe.

Optional:

- Pressure disk.
