

KPS4255 / KPS4770

One-Step Shrinking Machines

KPS 4255

General Features:

- Easy to use and offers stable packaging.
- One-time cutting and shrink feature.
- Motorized chip conveyor.
- Shrink heater adjustment.
- Shrink duration adjustment.
- Cutting time adjustment.
- Conveyor time adjustment.
- Magnetic magnet feature (holds the cover closed during shrink time and opens it after the process automatically).
- Adjustable product tray and product conveyor for different heights.
- Perforating needles for micro-holes.
- Powerful fan motor for hot air distribution.
- Usable Film (max) (mic): PVC-POF 7-30.
- Adjustable wheeled transport stand.
- Compliance with CE regulations.

	KPS4255	KPS4770
Maximum film dimensions (mm)	600 - 250 ø	600 - 250 ø
Sealing dimensions (mm)	420 x 550	470 x 770
Maximum package height (mm)	200	200
Working workbench height (mm)	920	920
Electrical supply (V)	220	220
Power (kW)	3,8	4,5
Productivity (pcs/min)	6 - 12	6 - 12
Machine dimensions max. (W x L x H, mm)	1610 x 765 x 1400	1910 x 770 x 1400
Machine weight (kg)	80	115
