Shrink Tunnels

KT6535

KL4055 + KT4525

OnShrink KT shrinking tunnels are the ideal solution to combine with **OnShrink KL** L-sealers, or any other semi-automatic or fully automatic sealer.

High performance, compact in size, with double thermal insulation both in walls and curtains, they are designed for professional use of high quality shrink packaging.

For optimal results it is recommended to use the

world class shrink film.

General Features:

- Compact dimensions.
- Ease of use.
- Double silicone curtains.
- Double shrinkage chamber heat insulation.
- Conveyor rollers with silicone coating.
- Stainless steel heater.
- Digitally adjustable:
 - Conveyor speed.
 - Tunnel temperature.
- Integrated wheels.
- Compliant with EC regulations of the European Union.
