## MAYA ECO Vertical packaging machine

Compact and robust packaging machine, available in its vertical version or with fix inclination. It is manufactured with a frame of stainless steel AISI 304 to grant the highest packaging hygiene and quality standards.

Pneumatic reel-holder, movable rear bracket and motorized reel-holder shaft come as standard supply. 7" color touch screen for simple Human-Machine Interface. The quick replacement of the forming tube and the employment of first level components make it a reference among the machines of its category.

Many options and configurations are available.

### Capacity up to 60 bpm

Stainless steel AISI 304

Compact design

## Technical Data

Max mechanical speed	60 bpm
Forming tube's dimensions	Min Ø 50mm / 1,97" Max Ø 200mm / 7,87"
Vertical sealing bar	400mm / 15,74"
Horizontal sealing bar	350mm / 13,77"
Min reel's width	150 mm / 5,9"
Max reel's width	650 mm / 25,59"
Min reel's internal Ø	76,2 mm / 3"
Max reel's external Ø	350 mm / 13,77"
Packaging materials	Thermo-sealing films (polythene, laminates, polypropylene, barrier films)
Horizontal sealing bars	Intermittent
Controlling system	Siemens PLC
Recipes	40
Interface	7" color touch screen
Electrical supply	220/380/400V, 50Hz
Compressed air	6 bar
Compressed air pipe	¼ diameter 8-10 mm
Compressed air consumption	5 Nl/cycle
Installed power (without options)	4 kWatt
Structure's material	Stainless steel AISI 304
Weight	~ 500 kg

## Options

- Gas injection to pack in MAP
- Thermal transfer printers
- Vacuum chamber
- Square bottom and flap folding kit
- Eurohole jaws
- Many others upon request

## Main bag formats

- Pillow
- Flat bottom
- Quad sealed bags
