

Mini Maya

Compact Vertical Packaging Machine

Maya Mini

Suitable for the needs of products such as legumes, spices, cut vegetables, nuts, liquid products etc.

Available in vertical or tilted version. Tilted version is suitable for sensitive products such as cookies, biscuits etc. which can be easily crushed or broken.

General Features:

- 100% stainless, robust construction.
- Film movement with belts that are automatically centered towards the shaping tube.
- PLC by Siemens/Allen-Bradley with 10 memory slots.
- Control panel with 7-inch color touch screen.
- Encoder for measuring the length of the package (unprinted film). Photocell for printed film (optional).
- Compressed-air circuit with alarm (on the control panel) in the event of a power failure.
- Works with all heat-sealable materials such as polypropylene, suitable aluminum foil, PVC, laminated film, etc.
- Electronic circuit console with high quality components, in accordance with European Union directives for 24V connections.
- Made in Europe.

Optional:

- Printer.
- Photocell for printed films.
- Inert gas injection (MAP), vacuum.
- Flat bottom bag.
- Lots of special additional features.

Maya Mini

Kinematical speed (cycles/min)	45
Max film width (mm)	560
Max bag width (mm)	260
Max bag length (single pulling, mm)	240/480*
Max film roll diameter (mm)	300
Air consumption (lt/min)	430
Electrical supply (V)	380
Power (kW)	3

* with double film pulling
