

# Pastpack 2L

Automatic Linear Sealing Machine for Cups and Trays with Two-Lane Working Mode

**PASTPACK 2L**

**Pastpack 2L** is an automatic linear sealing machine. It has a two-row runway, thus doubling productivity.

Sealing is done with aluminum foil or roll of film, depending on the order.

Linear configuration allows the placement of many fillers (for filling of composite products) as well as additional packaging options.

Suitable for sealing applications trays or cups for packaging of: yoghurt, cream, oil, sauce, mayonnaise, mustard, salad and other thin or viscous liquids, even with pieces up to 10 mm.

Also, with linear weighers, it is suitable for packing nuts, croutons, crackers and other dry products.

## General Features:

- 100% stainless, robust construction.
- UV lamp for sterilization.
- One-way conveying system.
- Automatic feeding of cups.
- Accessories from leading manufacturers (Festo, SMC, Omron, Bender, Schneider Electric etc.).
- Control panel with 7.2-inch color touch screen (LG, Siemens, Allen-Bradley).
- Date printer.
- Electronic circuit console with high quality components, in accordance with European Union directives for 24V connections.
- European manufacturing and CE.

## On Request:

- Closed product placement and sealing of disinfecting utensils.
- BIOZONE air purification system.
- Exit conveyor.
- Lid magazine.
- Range of additional fillers e.g., for extremely viscous liquids.

Pastpack 2L	Regular	Servo
<b>Kinematical speed (pcs/min)</b>	50	70
<b>Max round cup diameter (mm)</b>	130	
<b>Max rectangular tray dimensions (mm)</b>	95 x 145	
<b>Max container height (mm)</b>	120
