

Sliding Dosers

Dosing Cups

Step operating cycle. They are an affordable solution where volumetric dosing is required.

Products to be dosed:

Products in small piece form (not in the form of powder or rough - abrasive): pulses, cereals, seeds, nuts, tea, granulated coffee, and non-food.

General Features:

- Frame with hopper.
- Dosing cup.
- Control system.

Sliding Doser

Kinematical speed (cycles/min)	22
Dose range (lt)	0,2 – 1,5
Dosing cups	1
Max machine length (mm)	900
Max machine width (mm)	800
Max machine height (mm)	700
Max machine weight (kg)	80
Compressed air consumption at 6 bars (lt/min)	15
Electrical supply (V/Hz)	220/50, 1-phase
Power (kW)	0,9
