

TF-Clips

Semi-Automatic Device for Bag Closing with Double Plasticized Wire

TF-Clips

TF-Clips is a semiautomatic bag closing device with plasticized wire (clip). Due to its tilt, it is suitable for sensitive products that are easily broken or crushed.

The inclination of the machine can also be tailored to the needs of the product (upon order).

The operator places the bag at the inlet of the device. The bag is immobilized by a special mount to the desired height for clipping at the same point.

It is suitable for bakery products, sweets, nuts, snacks, and anything that can be packed in a bag.

General Features:

- The parts of the machine that come into contact with the product are made of stainless steel.
- Date print on clip.

Optional:

- Thermal printer.

TF-Clips Clipping Device

Kinematical speed (cycles/min)	30
Max bag dimensions (Length x Width x Height, mm)	400 x 230 x 100 or 400 x 120 x 140
Bag material	Polyethylene, Polypropylene
Clip material	Double, plasticized wire, 8 mm wide
Power (kW)	0,4
Electrical supply (V)	220
Machine dimensions (Length x Width x Height, mm)	1373 x 687 x 1070
