

TITANO

Vertical packaging machine

Flat Bottom Bag

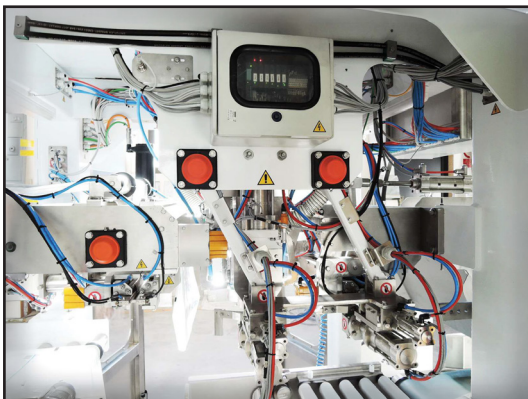

Vertical Pillow Bag

TITANO Vertical packaging machine

Vertical packaging machine in 3 stations for big formats to realize various kinds of bags, starting from tubular film reel.

Servodriven reel change system, automatic format change from recipe. Sack's reopening device with flaps cleaning and suction hood. TFT LCD9" color touch screen. Brushless motorization (film pulling and pendulum group).

Available versions: INOX, Fe, IP65, for food.

PENDULUM GROUP

9" COLOR TOUCH SCREEN

Technical Data

Max mechanical speed	900 bags / hour
Reel's max external Ø	1200 mm
Bag's weight	50kg
Min bag's length	530mm
Max bag's length	1000mm
Bag's min width	320mm
Bag's max width	420mm
Gussets' depth	From 40 to 110mm
Film thickness	120 to 250 micron
PLC	Siemens/Allen Bradley/Kollmorgen
Operator's interface	Siemens/Allen Bradley/Kollmorgen
Motors	SEW - Bonfiglioli
Gearboxes	SEW - Bonfiglioli
Pneumatic components	Festo/SMC
Electric components	Telemecanique / Siemens / Schneider Electric / Wieland Electric / Pilz
Compressed air consumption	100 l/c at 6 bar
Installed power	18 kW
Weight	~ 2700 kg

Options

- Microholing device on film for air rejection
- Printer application directly on film or bag
- 45° seals for bottom and top angles on gusseted bags
- Inert gas injection device
- Machine's realization fully in INOX
