

Three-Layer Flow Weigher

Three-Head Linear Dosing System

Three-Layer Flow Weigher

Taurus-Fenix's linear weighing systems consist of high accuracy and high-speed dosing systems. The series includes weighing machines of two or three heads with a set of different designs suitable for different products. Four-channel weighing cans can be used to achieve an even greater filling performance.

General Features:

- 100% stainless, robust construction.
- Smooth or embossed contact surfaces with the product (depending on the product).
- Numerous special configurations for specialized products.
- Color Touch Screen.
- Adjustable vibration.
- Coolers.
- Electronic circuit console with high quality components, in accordance with European Union directives for 24V connections.
- Made in Europe.

Three-Layer Flow Weigher

Kinematical speed (doses/min)	60
Minimum dose (kg)	0,015
Maximum dose (kg)	2
Dosing type	Weighing
Dosing accuracy for piece products	± 1 pc
Electrical supply (V)	220
Power (kW)	2,2
