

# Turbopack 181 / 182

Automatic Shrink Wrapping Machine with Cardboard Base  
for products packed in Gable Top Cartons

**Turbopack 181 / 182**

The **Turbopack 181/182** shrinking machine is designed to shrink a number of liquids products packaged into cartons together for transfer/shipment.

It is fully automatic and the shrinking process includes:

- Aligning the products.
- Placing a vertical splitting board. This way any problems in the final packaging are avoided.
- Putting a carton under the multipack.
- Polyethylene film wrapping.
- Transport to the shrink tunnel.

Multipacks can be:

2x3, 2x4, 2x5, 2x4, 2x5 (rows x packs).

### General Features:

- 100% stainless, robust construction.
- Working table with pneumatic pushers.
- Wrapper machine.
- Vertical splitting board.
- Cardboard placement by the machine under the multipack.
- Shrink tunnel.
- Accessories from leading manufacturers (Festo, SMC, Omron, Bender, Schneider Electric etc.).
- Electronic circuit console with high quality components, in accordance with European Union directives for 24V connections.
- Made in Europe.

### Optional:

- Roller conveyor.
- Discharge belt or chain conveyor.
