

Turbopack Line 20

High-Speed Automatic Shrink Machine for Transport Packaging

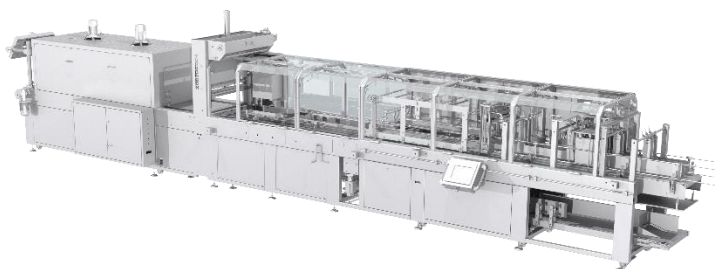

Turbopack Line 20

Turbopack Line 20 (+substrate)

Turbopack Line 20 (+tray)

The **Turbopack Line 20** shrink machine is designed to shrink multipacks for transfer/shipment at high speeds.

It is fully automatic and all the individual units (multi-packing, film wrapping, shrinking) are connected to each other via conveyors.

The speed of the Turbopack Line 20 can reach up to 20pcs/min.

Modified versions available:

- **Turbopack Line 20 (+ Substrate)**, where the operation has an extra step in which a cardboard is put under the multipack.
- **Turbopack Line 20 (+ Tray)**, where the operation has an extra step in which a cardboard with slots is put under the multipack.

General Features:

These machines are custom designed based on the needs of the customer and their features vary from time to time.

For this reason, any interested customer can contact **Kapelis Packaging** in order to be informed regarding the most suitable configuration.
