

VA Series

Vertical Vacuum Chambers

V42VA

V50VA

The **VA series** by the German manufacturer Boss Vakuum is designed for vertical vacuum packaging of cuboid ("brick") packaging for stylish and ergonomic results, reducing empty spaces and hence reducing storage and transport costs.

They accept a metal mold (of custom-made dimensions), enabling the desired, rather than a random form of the finished product.

Models available:

- **V42VA**
- **V50VA**
- **V810VA**
- **VX630VA**

General Features:

- Stainless steel construction, suitable for food contact.
- Reliable **BUSCH** pumps.
- High pressure sealing for safety.
- High pressure metal lid with automatic opening.
- Detection of boiling point so that no fluids of the product can evaporate.

Optional:

- Stronger vacuum pumps.
- Modified atmosphere packaging (**MAP**).
- Partial air return before opening (softair).
- Cutting/sealing bar.
- Double sealing.
- Supervision window on the lid.
- Special chamber/lid dimensions.

	V42VA	V50VA
Chamber dimensions (W x L x H, mm)	440 x 445 x 180	530 x 545 x 185
Machine dimensions (W x L x H, mm)	610x760x200	740x860x230
Sealing bar (mm)	420	520
Control panel	Z3000	Z3000
Vacuum pump (m ³ / h)	21	25 (63)
Electrical supply (V)	230 x 1	380 x 3

V810VA	VX630VA
850 x 670 x 200	740 x 860 x 230
1070 x 1000 x 1980	1600 x 1100 x 1300
810	630
Z3000	Z3000
100 (160)	100 (160)
380 x 3	380 x 3
