

Dri-Fresh® Fresh-Hold™ ABM

Anti-bacterial absorbent pads for meat, poultry & fish

- **With natural anti-bacterial fruit extract**
- **Variety of absorbency grades available**
- **Reduces odours within the pack**
- **Eliminates undesirable bacteria including Salmonella, E. coli & Campylobacter**
- **Can be customised to customer's needs**
- **Independently tested, verified & approved**
- **Ideal solution for packaging poultry**

Dri-Fresh® Fresh-Hold™ ABM absorbent pads for meat, poultry & seafood combine effective absorbency with integrated anti-bacterial/microbial properties, using a new technology based on a blend of natural fruit extracts, for the ultimate protection.

The extract, which is incorporated into the pad, contains a blend of natural bio-flavonoids and organic acids which, when activated by moisture, work as anti-oxidants and anti-microbials, eliminating undesirable bacteria including Salmonella, e. Coli and Campylobacter, as well as odours.

As well as shelf-life benefits and bacteria-free food, **Dri-Fresh® Fresh-Hold™ ABM** absorbent pads offer easy handling and excellent appearance to provide cost-effective absorption for food packages, particularly for meat, poultry & seafood.

Dri-Fresh® Fresh-Hold™ ABM absorbent pads are available in a range of colours, absorption levels, shapes and sizes to suit all applications. Single-sided or double-sided pads are available.

Dri-Fresh® Fresh-Hold™ ABM absorbent pads can be integrated into any packaging format to provide innovative and cost-effective packaging solutions for all stages of the supply chain.

Absorbency grades of 800cc/m² up to 26,000cc/m²

Natural fruit extract used as an anti-bacterial

Reduces odours

Can be customised based on individual requirements
