- **Attracts and absorbs organic vapours which produce unpleasant odours**
- **Excellent bacteria restriction & suppression**
- **Can be customised to customer's needs**
- **Independently tested, verified & approved**
- **BRC & ISO9001 manufacturing conditions**

Dri-Fresh® Fresh-Hold™ odour-absorbing pads combine unique odour absorption properties with specialist absorbent materials creating products with excellent product presentation characteristics.

Dri-Fresh® Fresh-Hold™ odour-absorbing pads are manufactured using a unique proprietary process. As such, the pads are completely food safe, suffer no loss of absorbency during application, are resistant to delamination and are effective at removing unpleasant odours even when moist.

Dri-Fresh® Fresh-Hold™ odour-absorbing pads can be integrated into any packaging format to provide innovative packaging solutions, where odour is off-putting for customers.

Absorbency grades of 800cc/m² up to 26,000cc/m²

Attracts and absorbs organic vapours which produce unpleasant odour

Offers excellent bacteria restriction and suppression

Can be customised based on individual requirements

Independently tested, verified & approved
