

# Sira-Cook™ Supreme™ Flavour-it

Oven/bbq cooking bag which flavours food

- Uses fine wood chips with blend of dried herbs/spices
- Six standard flavours available
- Bespoke flavours possible
- Four sizes available
- Can be heat sealed or self-seal
- Clear top panel means food is visible
- Potential for BBQ ready meals
- Non-stick bag

The **Sira-Cook™ Supreme™ Flavour-it** bag can be used in a conventional oven or on a griddle, hot-plate or barbecue, and uses only natural products - wood chips, herbs and spices - in order to flavour the food during the cooking process.

**Sira-Cook™ Supreme™** bags can be heat-sealed, meaning the bag can be used for 'oven/barbecue ready meals'.

Whether it is meat, fish, poultry or vegetables - even a whole chicken/turkey - they can all be sold/cooked in a **Sira-Cook™ Supreme™** bag, and wood chips are supplied inside the bags, creating a high-quality 'smoking bag' for added flavour.

The wood chips are placed in a sachet along with dried herbs and spices, and placed below the non-stick siliconised layer which is perforated, allowing flavours through during cooking.

**Sira-Cook™ Supreme™ Flavour-it** is available in six flavours as standard: onion, mustard and spices (FL1); rosemary, juniper berries and spices (FL2); garlic, ginger and spices (FL3); mustard, sweet basil and spices (FL5); bayleaf, onion and spices (FL9) and juniper berries, pine cones and spices (FL10). Bespoke flavours are potentially available.

The bags come in four sizes and are designed to withstand direct heat/flames. The clear top panel means the food is clearly visible at all times during the cooking process.

A self-seal version is also available. Bags can be provided in small packets as 'Folded, Packed and Sealed (FPS)' for use in ready meals packs and as part of meal kits.

**Sira-Cook™ Supreme™** is not formulated with BPA.

**Four sizes:**  
220mm x 300mm,  
220mm x 400mm,  
320mm x 300mm
