www.sirane.com

The **Sira-Cook™ Supreme™** bag can be used in a conventional oven or on a griddle, hot-plate or barbecue. Sauces and glazes can be added either by the retailer or the user, making the **Sira-Cook™ Supreme™** a perfect over-the-counter option.

Sira-Cook™ Supreme™ bags can be heat-sealed, meaning the bag can be used for 'oven/barbecue ready meals'. We also have a high-barrier version which is suitable for gas-flushing.

Whether it is meat, fish, poultry or vegetables - even a whole chicken/turkey - they can all be sold/cooked in a **Sira-Cook™ Supreme™** bag. Stunning, succulent, healthy food - anyone can do it. No mess, no need for customers to handle the food, no odours - and the pack has a simple-to-open top; the top of the **Sira-Cook™ Supreme™** bag simply peels away when hot.

The bags come in four sizes and also a standard or non-stick option, and are designed to withstand direct heat/flames. The clear top panel means the food is clearly visible at all times. Wood chips or cedar papers can be supplied inside the bags, creating a high-quality 'smoking bag' for added flavour. We can also supply 'liquid smoke' for stronger flavours.

Sira-Cook™ Supreme™ bags can be supplied in retail packs, either using Sirane's Thinking-Cooking brand or under customers' own labels. A self-seal version is also available. Bags can be provided in small packets as 'Folded, Packed and Sealed (FPS)' for use in ready meals packs and meal kits.

Sira-Cook™ Supreme™ bags can also be supplied with **Dri-Fresh™ Supreme™** ovenable pads for integrated absorbency.

Sira-Cook™ Supreme™ is not formulated with BPA.
