

WIKI

Automatic Horizontal Packaging Machine for Small to Medium Production.

Automatic horizontal packaging machine for low to medium productivity with 3 servo motors. Strong sealing using a rotating transverse jaw. Fully electronic with easy and fast settings via a 7" Siemens touchscreen. Suitable for a wide range of products such as pastries, baked goods, confectionery items, sweets, etc. Optional accessories are available, including a printer, photoelectric sensor for pre-printed film, easy-tear zig-zag notch, and more. Fully manufactured in Italy with components from internationally recognized suppliers.

It is also available with an innovative cooling system at the point where the longitudinal sealing rollers are located, ideal for heat-sensitive products such as chocolates and sweets.

APPLICATIONS

CONFECTIONARY	PHARMA	CANDIES	BAKERY	ICE CREAMS	COSMETICS	FROZEN PRODUCTS	PET FOOD
							

Technical Specifications:

Productivity	80 pcs/min (depending on product length)
Weight	500 kg
Power	2 kW
Power Supply	220 V / single-phase
Bag Dimensions	Length 220 mm, Height 50 mm, Width 120 mm
Machine Dimensions	2368 × 862 × H 1514 mm
Maximum Film Width	300 mm
Display	7-inch Siemens touchscreen
