

PRIME

Automatic horizontal packaging machine for small productivity.

The **PRIME** packaging machine is designed to ensure efficiency and ease when packing products with a height of up to 100 mm and a bag length that can reach up to 2 meters. Thanks to its compact footprint it adapts seamlessly to the needs of any customer and production environment. The machine can be equipped with a thermal transfer printer for full ingredient coding and a photocell for operation with pre printed film while the maximum film width it can handle is 600 mm making it suitable for both small and large products.

The practical 45 degree loading system ensures ergonomic operation and is ideal for pre weighed loose or individual products.

APPLICATIONS

TECHNICAL PRODUCTS	BAKERY	SNACK	CANDIES	FRUITS & VEGETABLES	ICE CREAMS	CONFECTIONARY	PET FOOD
							

With manual loading the operator can feed the machine with the desired number of pieces or product weight and then activate it via a convenient foot pedal automatic timer system or push button. The bag length is easily adjustable through the touchscreen simplifying changeovers without interruptions.

Compatible with packaging materials such as BOPP paper met PET and more PRIME offers flexibility and reliability to meet market demands.

Fully manufactured in Italy using components from internationally recognized manufacturers.

Technical Specifications:

Productivity	up to 20 pcs/min (depending on product length)
Weight	250 kg
Power	1.5 kW
Power Supply	220 V / single-phase
Maximum product dimensions	Length 50-1.000 mm, Height 100 mm, Width 250 mm
Machine Dimensions	650 × 800 × H 1400 mm
Maximum Film Width	600 mm
